■ Summary

SAP ABAP & Enterprise Reporting Engineer with 3+ years delivering scalable S/4HANA solutions for global enterprises. Experienced in ABAP-based reporting and SQL Server Reporting Services (SSRS), working with parameterized reports, datasets, and SAP-to-SQL reporting pipelines. Skilled in debugging, performance optimization, and enabling EU e-Document processes (e-Invoice, e-Archive, e-Ledger, VAT Return). Additionally, I actively explore modern web development and AI-assisted development tools, including ChatGPT and Claude Code, in personal and professional projects.

■ Work Experience

SOVOS | *Istanbul, Turkey*

Solutions Engineer, August 2023 – February 2025

Software Support Analyst II, October 2022 – August 2023

- Developed and optimized ABAP enhancements for SAP e-Transformation modules ensuring EU compliance.
- Designed SAP integrations with third-party systems using APIs and custom modules.
- Supported SD, FI, MM modules and managed web services, RFC, and SOAP/REST connections.
- Supported secure file transfers via FTPS and hybrid reporting pipelines with SSRS datasets, ensuring SAP-to-SQL data consistency.
- *Key Clients:* Amazon, Apple, Shell, Coca-Cola, P&G, Sanofi, BAT, Stellantis, Rockwell Automation, Total Oil

RENOVA CONSULTING | *Istanbul, Turkey*

ABAP&FIORI Consultant, June 2020 – April 2021

- Developed ALV reports, Module Pool programs, SmartForms, and Adobe Forms.
- Delivered standard and custom FIORI enhancements.
- Supported RFC & Web Service integrations and hybrid SAP–SSRS reporting solutions.
